

*for the people outside Japan

Thank you for your interest in Coolpupplet bandannas!

The items can be delivered to you outside Japan either by ordinary airmail or by EMS (EMS is for 5 or more items) .

The delivery charge depends on the weight of the package, so the figure will be informed you after your order placement or your question for a specific number of the items.

The item price is based on the exchange rate between yen and the US dollar of the time of your order.

This is a very small business, and as to the payment, presently the payment through PayPal account is only available. I am sorry for your inconvenience. Will you open your personal PayPal account? The customer is required to pay the transfer charge, and that of PayPal is by far the cheapest.

Special terms are available for the customer who places an order of 50 items or more for the sale in his/her country. Please feel free to inquire.
